SB 1383: New Statewide Mandatory Organic Waste Collection

Effective Jan. 1, 2022, all California businesses, multifamily complexes, and residences are required to separate organic waste from trash and subscribe to an organics collection program per State law SB 1383. Organics consist of food scraps, compostable food-soiled paper, and yard waste. SB 1383 was passed to divert more food waste and yard trimmings from our landfills to further reduce greenhouse gas emissions and slow climate change.
